

# BOSS-U Prime Contract Biometrics Support

ID/IQ Contract No. W91QUZ-09-D-0025

## Team CACI Takes the Lead in BOSS-U Technology Solutions

As one of the prime contractors for the Biometrics Operations and Support Services – Unrestricted (BOSS-U) program for the Biometrics Identity Management Agency (BIMA), CACI has the capability to provide a wide range of services to support warfighters as they face new challenges and threats in the asymmetric war being waged against global terrorism. Team CACI offers solutions and services to DoD customers in the following areas:

- Management Support Services
- Infrastructure Procurement, Design, Development, Implementation, and Integration
- Operations and Maintenance
- Studies and Analysis
- Advanced Technology Analysis and Demonstration
- Test and Evaluation

Beginning in 2001, CACI has supported the DoD's biometrics mission with program management,

acquisition life cycle, and biometrics intelligence analysis services. This contract is aligned with CACI's Integrated Security and Intelligence Solutions (ISIS) functional core competency across multiple customers in support of the warfighter, national defense, and homeland security. From equipping military operations with smaller, faster, lighter biometrics collection and screening technologies for fingerprint/iris/face recognition, to improving biometric data sharing among agencies, Team CACI is committed to meeting the critical challenges to provide enduring biometrics capabilities across DoD.

Team CACI offers a full lifecycle solution approach with unified project management, design, implementation, and operations framework to handle the BIMA's complex needs and diverse requirements in the BOSS-U contract vehicle. Our team offers:

- **Increased Efficiency of Service Delivery to the BIMA and End Customers** – Well-defined processes and standard work procedures to improve service

levels and ensure tasks are completed quickly and correctly every time

- **A Full Lifecycle Approach to Support BIMA's Evolving Mission** – Flexibility to provide tactical-to-strategic services based on proven methodologies and industry-recognized best practices
- **Visibility Into Measurable Improvements to Achieve Defense Transformation Goals** – Real-time insight into overall program health with leading and lagging performance indicators
- **A True Partnership** – Focus on Service Level Management and Service Level Agreements for a broad range of services and solutions that allow Team CACI to truly partner with the BIMA and other BOSS-U contract users.

**Team CACI Covers a Broad Breadth and Depth to Support the BOSS-U Contract Vehicle**

CACI offers an integrated team of biometrics experts which ensures full coverage and depth across all six BOSS-U functional category requirements. Our strategic partners provide innovative and proven biometrics-based solutions and services to respond to the evolving needs of our customers. Through the BOSS-U contract vehicle, we leverage best-of-breed capabilities from our large array of specialized industry-leading subcontractors.

BOSS-U is vitally important, because it involves protecting the warfighter in-theater and supporting our nation’s top priorities. Through BOSS-U, Team CACI shall address a broad spectrum of functional needs through various task orders, including technology that is useful in the homeland security arena.
