

# Easier Access to Books24x7®

---

You've asked and we've listened....easier access to Books24x7!

Your day can get very busy and you may need instant access to knowledge. Fewer clicks to access Books24x7 means more time in your day. Additionally, information at your fingertips gives CACI a competitive advantage. Now you can find information more quickly with a separate Books24x7 password.

While you will still be able to access Books24x7 though CVU, a separate Books24x7 password will improve your Books24x7 experience in the following ways:

- Direct access to Books24x7 for performance support and instant learning needs
- Access to the Books24x7 On the Go™ mobile site from Web-enabled mobile devices
- Automated retrieval of forgotten username and password information
- Ability to send colleagues direct links to specific online books (those who receive the link must have already created their Books24x7 password)
- Ability to login from the New Title Notifications

To set up your Books24x7 password:

1. Login to CVU (<https://cvu.caci.com>).
2. Click on '**Click to Launch Books24x7**' in the Training Resources portal.
3. Once in Books24x7, click on the '**Account Info**' tab on the top right-side of the screen.
4. Click on 'Password' on the left side menu under "**Settings**"
5. Enter a new password or request a temporary password if you have forgotten your previous one.

*Note: This password is independent of any other CACI password.*

To login to Books24x7 directly after setting up your password, use this link:

<http://skillport.books24x7.com>

To login to Books24x7 from your mobile device after you have set up your Books24x7 password:

1. Go to <http://mobile.skillport.books24x7.com> using your mobile device (the Books24x7 On the Go mobile site is optimized for viewing on Web-enabled cell phones, PocketPC, BlackBerry®, and other PDA devices that have browser capabilities)
2. Login using your CACI network username; your Books24x7 password; and the Group Code "YVQJV"

Please contact SkillSoft support at <http://support.skillsoft.com/> if you have questions.
