## CACI's Health Contract Vehicles

- NIH CIO-SP3
- CDC CIMS
- FDA ELMS
- VA T4NG
- CMS SPARC
- SPAWAR Pillars
- GSA Alliant
- GSA IT70

CACI holds a wide range of contract vehicles to support our federal health market customers. Some of CACI's contract vehicles to access services across the federal health agencies include:

- **National Institutes of Health (NIH) Chief Information Officer–Solutions and Partners 3 (CIO-SP3)** – CIO-SP3 is a government-wide acquisition contract (GWAC) that offers products and services. Task areas include information technology hardware, software, systems, and services to government information resources management and chief information officers.
- **Centers for Disease Control and Prevention (CDC) Information Management Services (CIMS)** – CIMS is a multiple-award, indefinite delivery/indefinite quantity contract that delivers information management services, IT infrastructure services, and management consulting services in support of the CDC's public health mission.
- **Department of Veterans Affairs (VA) Transformation Twenty-One Total Technology Next Generation (T4NG)** – T4NG is a five-year indefinite delivery/indefinite quantity contract vehicle that supports the VA's IT acquisitions.
- **Centers for Medicare and Medicaid Services (CMS) Strategic Partners Acquisition Readiness Contract (SPARC)** – SPARC is a multiple-award indefinite delivery/indefinite quantity contract for the procurement of IT system development services, from end to end, to facilitate the modernization of CMS business processes and supporting systems.
- **Space and Naval Warfare Systems (SPAWAR) Pillars** – SPAWAR has a Pillar contracting strategy centered around the business portfolios supported by the command for Business and Force Support (BFS). The BFS portfolio is focused on transitioning customers to enterprise solutions using state-of-the-art technologies promoting operational efficiency and flexibility while reducing long-term sustainment costs. The BFS portfolio is also focused on improving network, system, and security services, and providing cost-wise paths for upgrading systems to provide enhanced capabilities, scalable to large enterprises, based on recognized quality standards.
- **Government Services Administration (GSA) Alliant** - Alliant provides flexible access to customized IT solutions. The Alliant GWAC contract includes any and all components of an integrated IT solution, including all current and any new technologies that may emerge during the life cycle of the contract, and IT systems and services in support of national security systems.
- **Government Services Administration (GSA) IT70** – Under this contract, CACI has six schedules available that provide a broad range of information technology services spanning the full spectrum of the system life cycle.
