BUSINESS MANAGEMENT, ACQUISITION SOLUTIONS, POLICY IMPLEMENTATION AND PROGRAM MANAGEMENT

Our unique combination of in-depth contracting and technical expertise is backed by many years experience. We provide acquisition solutions from contract support, source selection support and policy support to hosting and deployment strategies for your automated procurement application.

Let our more than 300 experienced acquisition professionals become your "force multiplier." We deploy quickly to provide you with accurate, cost effective solutions to complex acquisition problems, or augment your acquisition workforce with experienced acquisition professionals.

Our staff consists of:

- Credentialed former Contracting Officers, Purchasing Managers, and Program Managers from the private and public sectors with an average 13 years of experience
- Skilled practitioners who understand networks and connectivity as well as they understand acquisition policy and management
- Technical experts who can help you evaluate your automated contracting environment in terms of legislative compliance, vulnerability and policy compliance

The CACI Business Management Division is your natural choice to assist you in making solid decisions about your activity's needs. **Our number one priority is your satisfaction.** We ARE the fusion of contracts and technology.

Develop all student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Train personnel by conducting formal classroom courses, workshops, seminars, and/or computer-based/computer-aided training. Provide daily supervision and direction to staff.

Support Product Descriptions

1. *FedSelect*[®] Automated Proposal Evaluation Tool

FedSelect[®] software by CACI provides acquisition support with the means to automate the proposal evaluation process and move towards a paperless acquisition environment.

FedSelect[®] is a client-server database application for evaluating technical proposals. The software system guides proposal evaluators through intuitive electronic forms to derive and document comments and proposal strengths, weaknesses, clarifications, deficiencies, ratings and rationales. *FedSelect*[®] accommodates multiple rating methods including color, adjectival and several numeric systems and allows organizations to change many of the default terms provided with the tool. The software is available in either Microsoft Access or SQL database versions.

The *FedSelect*[®] design is founded in CACI's knowledge of the acquisition process and expertise in software development. *FedSelect*[®] provides structure to the evaluation process of an organization, significantly reduces non-value-added time, and provides quality documentation without being restrictive. Upon completion of an evaluation, an on-line caucus session can start immediately. Compiling evaluation data, consolidating caucus findings, grouping approved deficiencies and clarifications by offerors, and other source selection information is accomplished in the *FedSelect*[®] Reports module.

FedSelect[®] provides the framework that allows proposal evaluators to do a more thorough evaluation by providing on-line access to criteria, standards and rating guidelines, increasing traceability through one or more rounds of evaluations, and by providing the ability to monitor evaluations on-line while they are in process. Acquisition officials then also have the ability to provide feedback to individual evaluators in *FedSelect*[®] itself.

FedSelect[®] unrestricted software is available in two separately priced database versions, Microsoft Access and SQL. Unrestricted software includes first-year use of the software for an unlimited number of source selections; initial loading and testing of software by CACI; first-year toll-free help desk support, Monday through Friday 8:00 a.m. to 5:00 p.m. EST, excluding holidays; and first-year software upgrades.

FedSelect[®] annual maintenance is available and priced separately for the Access and SQL versions of the software. Annual maintenance includes one year of continued use of the software during the maintenance period; help desk support; and software upgrades.

For additional information on the *FedSelect*[®] Automated Proposal Evaluation Tool, visit the *FedSelect*[®] web site at <http://www.caci.com/asg/FedSelect/fedselect.shtml>.

2. Automated Source Selection Facility

The CACI automated source selection facility is a turn-key facility carefully designed and equipped to facilitate the evaluation of competing proposals submitted to an organization as part of a procurement. The facility includes specialized computers and software for performing an electronic source selection. General-purpose office equipment and conference room space are also available to provide comprehensive support for evaluation teams, technical libraries and contractor meetings.

The automated source selection facility is located at the CACI Sequoia Plaza office, 2100 Washington Boulevard, Suite 3000, Arlington, Virginia 22204.

The automated source selection facility includes a suite of adjacent offices equipped with evaluation workstations and standard office equipment suitable for technical and cost evaluation teams. The facility can be configured for evaluations of various sizes. Facilities available include a proposal storage area, conference and caucus rooms, a proposal library, and high speed copiers and fax machines. At the client's option, the facility can be readily equipped with the *FedSelect*® automated proposal evaluation tool, which is described above. Internet access is available via T1 line. The facility is available generally Monday through Friday, 8:00 a.m. to 5:00 p.m., but other hours of availability are negotiable. The minimum rental period for the CACI Automated Source Selection Facility is five full days.

For additional information on the automated source selection facility or scheduling assistance call the FedSelect® help desk at 1-800-331-6461 ext: 3, Monday through Friday 8:00 a.m. to 5:00 p.m. EST.

3. Training Facility

CACI offers area organizations a state of the art technical learning center with dual screen projection capability that can accommodate up to 10 students. The center is suitable for training and presentations. Organizations may utilize the 10 Windows workstations, dedicated server, on-demand technical assistance, dedicated network, shuttle to metro, and convenient free parking. The training facility is located at the CACI Sequoia Plaza office, 2100 Washington Boulevard, Suite 3000, Arlington, Virginia 22204. The facility is available generally Monday through Friday, 8:00 a.m. to 5:00 p.m., but other hours of availability are negotiable.

For additional information on the training facility or scheduling assistance call the FedSelect® help desk at 1-800-331-6461 ext: 3, Monday through Friday 8:00 a.m. to 5:00 p.m. EST.
