New (PSC: 8405)	
Ancillary (PSC: 8415) OLM	Order Level Materials

- 1b. Lowest Price Model Number and Lowest Unit Price: See Section 3, Price Lists.
- 1c. Hourly Rates: See Section 3, Price Lists.
2. Maximum Order: For Schedule orders valued over the maximum order threshold, GSA recommends that the ordering activity seek price reductions. Maximum Orders are identified in the below table:

NAICS	Maximum Order Threshold
238910	\$200,000.00
333314NV	\$200,000.00
334220	\$200,000.00
334290	\$100,000.00
334290L	\$100,000.00
334511	\$300,000
334512	\$150,000
541330L	\$200,000
611430ST	\$200,000
New	\$200,000
Ancillary	\$150,000
OLM	\$100,000

3. Minimum Order: For Schedule orders, the minimum order designated is \$100.
4. Geographic Coverage: The contract's geographic scope is worldwide.
5. Production Points: Services under this Schedule are provided as specified on individual orders.

Items	Manufacturer	Production Point
L-3 Insight Technology Products	L-3 Insight Technology	9 Akira Way Londonderry, NH 03053
L-3 Mobile-Vision Products	L-3 Mobile-Vision VIEVU	90 Fanny Road Boonton, NJ 07005 105 W. John St Seattle, WA 98119

- 24a. Environmental Attributes: Not applicable.
- 24b. Section 508 Compliance: If applicable, Section 508 compliance on contract supplies and services are available in Electronic and Information Technology (EIT). L-3 understands that Section 508 generally requires Federal agencies to ensure that EIT procurement accounts for all users' needs, including those of people with disabilities. As agencies identify Access Board technical provisions applicable to each order, L-3 will meet those provisions. EIT standards are posted at www.Section508.gov/.
25. Data Universal Number System (DUNS) number: CACI has registered with the Data Universal Number System (DUNS) database.
CACI NSS, Inc.'s DUNS number is 080175220.
26. Registration in Central Contractor Registration (CCR) Database: CACI NSS, Inc. has registered with the System for Award Management (SAM) database (formerly CCR).
CACI NSS, Inc.'s CAGE code is 7LRZ3.
27. Uncompensated Overtime: Labor rates are based on a 40-hour work week.
28. Delivery Restrictions: Consult CACI prior to ordering products for OCONUS delivery. Products may be ITAR or Export Controlled.

2 NAICS Descriptions

2.1 NAICS 238910: Site Preparation Contractors (PSC: N063)

Include installation and site preparation services ordered in conjunction with buildings and structures, building materials, storage tanks/systems, services for alternative energy solutions or power distribution equipment, and fuel dispensing and management systems purchased under this schedule contract. For ordering limitations and information, refer to the Special Ordering Procedures/Ordering Guide posted on www.gsa.gov

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

2.2 NAICS 333314NV: Optical Instrument and Lens Manufacturing (PSC: 5855)

Includes night vision equipment, such as cameras with night vision, etc.

NOTE: Subject to Cooperative Purchasing

2.3 NAICS 334220: Surveillance Systems (PSC: 5820)

Includes surveillance systems, wearable body cameras, and vehicle videos, including video storage and services as part of a total solution.

NOTE: Subject to Cooperative Purchasing

2.4 NAICS 334290: Other Communications Equipment Manufacturing (PSC: 6350)

Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc.

NOTE: Excludes vehicular alarms.

NOTE: Subject to Cooperative Purchasing

2.5 NAICS 334290L Other Communications Equipment Manufacturing Systems (PSC: 6350)

Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc.

Note: Subject to Cooperative Purchasing

2.6 NAICS 334511: Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing (PSC: 1940)

Includes telecommunications equipment and accessories, such as radar (except airborne), underwater, light, and laser equipment.

NOTE: Subject to Cooperative Purchasing

2.7 NAICS 334512: Automatic Environmental Control Manufacturing for Residential, Commercial and Appliance Use (PSC: 6350)

Includes products to support facilities management systems, such as repair parts, surveillance systems, security functions, energy functions, building comfort systems, etc.

NOTE: Subject to Cooperative Purchasing

2.8 NAICS 334519: Other Measuring and Controlling Device Manufacturing (PSC: 6665)

Includes airport security, and related services.

2.6 NAICS 541330L: Engineering Services (PSC: R425)

Includes services involving the security integration/management discipline, which supports security products and systems throughout their lifecycle. Services may include, but are not limited to: testing, production, fielding, process improvement, disposal, etc.

NOTE: Subject to Cooperative Purchasing

2.7 NAICS 611430ST: Professional and Management Development Training (PSC: 4230)

Includes all security training related to law enforcement, security, emergency preparedness and/or first responders. Examples include instructor-led training, web-based training, pre-set courses, training development, etc.

NOTE: Subject to Cooperative Purchasing

2.8 Ancillary (PSC: 8415)

Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor's offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

2.9 New (PSC: 8405)

Includes the introduction of new supplies, technology and services categorically related to items already on GSA contract, which may be in commercial development and/or not yet introduced to the federal government.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

3.0 OLM

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:

OLMs are:

- Purchased under the authority of the FSS Program
- Unknown until an order is placed

- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)
- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:

- "Open Market Items."
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:

- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

426-99	25TWD1100-019	RANGE-R	RANGE-R is a handheld, very low power radar, able to sense the presence and distance to people through the walls of buildings. Includes shipping, case, user manual & DVD	\$6,000.00	\$5,800.00	\$5,600.00	\$5,400.00
426-99	25TWD1100-029	RANGE-R Link	RANGE-R with WiFi capability that enables remote control at >100 meters away. Includes shipping, case, user manual & DVD & APP	\$8,760.00	\$8,560.00	\$8,360.00	\$8,160.00

Notes:

1. The manufacturer warranty provided with the RANGE-R™ is for defects in materials and workmanship for a period of 12 months following delivery to the end user. Damage due to abuse, misuse, mishandling, or use other than specified in this user manual is not covered by the warranty.

3.4 L-3 Security & Detection Systems

NAICS	Part Number	Product Name	Product Description	GSA Price
334519	1000-1PX64-00	PX6.4 Checkpoint X-Ray System	Screens small/medium-sized objects such as infant/child safety seats, parcels/ packages, mail bins, carry-on luggage, other hand-carried items such as briefcases and backpacks.	\$25,648.36
334519	1000-1PX107-00	PX107 Break-Bulk Freight X-Ray System	Designed as the ideal airport and non-palletized screening solution, handles a wide variety of packages/freight, including oversized/out-of-gauge cartons and irregularly shaped items. The extended height tunnel handles non-palletized freight.	\$40,201.51
334519	1000-PX231-00	PX231 X-Ray Inspection System	Screens non-palletized freight, break-bulk cargo, and packages in diverse sizes. Downward projecting x-ray beam allows for low conveyer height from the ground.	\$36,372.80
334519	1000-PX208-00	PX208 X-Ray Inspection System	Handles outsized baggage and large boxes that conventional checkpoint x-ray systems can't, even in limited space. Ideal for border crosNAICSgs and checkpoints.	\$32,544.08
334519	1000-1PX53-00	PX5.3 Security X-Ray Inspection System	Compact system fits through standard doorways, ideal for schools, office buildings, courthouses, correctional institutions, cruise ships. Screens briefcases, backpacks, parcels, packages, and other small to medium-sized objects. Facilitates rapid detection of multiple threats, including weapons, narcotics, explosives, and other contraband.	\$20,100.76
334519	1000-MVACX-03	ACX6.4-MV Automated Multi-View Checkpoint X-Ray System	Automated multi-view checkpoint security with advanced automated explosives detection.	\$136,603.53
334519	1000-P1010-2V	PX10.10-MV Non-Palletized Freight X-Ray System	Designed to serve the needs of airport baggage, postal facilities, freight forwarders, and other cargo break bulk screeners. Handles a wide variety of packages/freight, including oversized/out-of-gauge cartons and irregularly shaped items.	\$81,360.20
334519	0125-10732-00	PX15.17-MV 200 Palletized Freight and Cargo X-Ray System	Designed as the ideal freight screening solution for air cargo, can also be used in seaports, warehouses, manufacturing centers, and military bases. Screening is accelerated with cargo consolidated on skids and pallets.	\$172,292.19
334519	0125-10734-00	PX18.18-MV 200 Palletized Freight and Cargo X-Ray System	Designed as the ideal freight screening solution for air cargo, can also be used in seaports, warehouses, manufacturing centers, and military bases. Screening is accelerated with cargo consolidated on skids, pallets, and ULDs.	\$205,793.45
334519	CX-Mobile G3	CX-Mobile G3 Cargo Inspection Solution	Self-powered screening solution allows local or remote image analysis. Additional sensors are easily integrated for viewing on a NAICSgle interface.	\$3,148,615.62
334519	CX-Gantry	CX-Gantry Cargo Screening Solution	Enables efficient inspection of large freight loads, from full loaded 18-wheelers to ISO intermodal shipping containers and air cargo ULDs. Differentiation between organic and inorganic materials helps quickly identify suspicious contents.	\$2,012,090.68
334519	CX-Portal	CX-Portal Cargo Inspection Solution	Eliminates bottlenecks at ports, airports, and other high-volume cargo inspection locations by allowing drivers to remain inside the vehicle during scans.	\$1,802,518.89
334519	PX10.10-AV	PX10.10-AV Autovan Mobile X-Ray Machine	Autovan mobile x-ray machine	\$219,098.24

NAICS	Part Number	Product Name	Product Description	GSA Price
334519	PX10.10-TC	PX10.10 – Towcart Mobile X-Ray Machine	The towcart is based on the standard static PX107 unit with side shooting configuration. Designed with weight reduction in mind, conveyor ends that fold up when in transit, and gas stays that allow the unit to be set up NAICSg-le-handed, when in the horizontal position the conveyor can support various sized articles. Fits into a custom built trailer body that is lightweight and fully weatherproofed and can be towed by large cars, vans, or four wheel drive vehicles.	\$78,967.25
334519	PX10.8-AV	PX10.8- AV Autovan Mobile X-Ray System	Autovan mobile x-ray machine	\$214,312.34
334519	PX10.8-TC	PX10.8- Linescan Towcart Mobile X-Ray Machine	The towcart is based on the static PX231 unit with down shooting configuration. Designed with weight reduction in mind, conveyor ends that fold up when in transit, and gas stays that allow the unit to be set up NAICSg-le-handed, when in the horizontal position the conveyor can support various sized articles. Fits into a custom built trailer body that is lightweight and fully weatherproofed and can be towed by large cars, vans, or four wheel drive vehicles.	\$74,181.36
334519	1000-10002-PV	ProVision 2 Compact Advanced Passenger Screener	Compact image-free solution quickly screens passengers uNAICSg safe active millimeter wave (MMW) radio frequency to detect concealed objects made of a broad variety of concealed materials (metallic and non-metallic) including liquids, gels, rubber, wire, power, plastics, ceramics, sheet and bulk explosives. Compact to fit in tight aviation checkpoint areas, may also be suitable for	\$177,078.09
334519	40EMD4100-049	OptEX Explosives Trace Detection System	Ideal for airports, seaports, border crosNAICSgs, air cargo facilities, embassies, and other critical infrastructure facilities. Searches for unique heat signatures that indicate trace amounts of explosives. Detects energetic material – from newly created compounds to documented substances such as TATP, TNT, PETN, RDX, NC, nitrates and a wide range of military, commercial, and home-made explosives.	\$43,073.05
334519	1000-PS64C-00	ProScan 6.4c with Short Conveyor	Designed to screen small and medium-sized objects such as briefcases, backpacks, parcels and packages, the durable ProScan 6.4c provides an unbeatable combination of small size and low weight, operational flexibility and best value performance. With Short Conveyor (56").	\$22,015.11
334519	1000-PS64C-00M	ProScan 6.4c with Medium Conveyor	Designed to screen small and medium-sized objects such as briefcases, backpacks, parcels and packages, the durable ProScan 6.4c provides an unbeatable combination of small size and low weight, operational flexibility and best value performance. With Medium Conveyor (82").	\$22,589.42
334519	1000-PS64C-00L	ProScan 6.4c with Long Conveyor	Designed to screen small and medium-sized objects such as briefcases, backpacks, parcels and packages, the durable ProScan 6.4c provides an unbeatable combination of small size and low weight, operational flexibility and best value performance. With Long Conveyor (113").	\$22,972.29
334519	1000-20001-SV	SafeView Advanced Imaging Technology	The SafeView is a millimeter wave personnel screener that quickly creates a 3-D black and white image of the subject being scanned. The system's imaging tools enable trained analysts to locate a broad range of threats and contraband.	\$177,078.09

3.5 L-3 Unidyne Security Solutions Products and Training Courses

Please visit our website for a complete list of all products and training courses offered through MAS Schedule Contract GS-07F-5377P:

<http://www.l-3nss.com/images/PDFs/GSASchedule84.pdf>

L-3 Unidyne Inc. offers a highly skilled workforce and state of the art Lenel and OnSSI hardware, software and training services for integrated turnkey security solutions in Access Control, Intrusion detection and Video Management.

We offer over 1,700 Lenel Hardware, software and training items for integrated security solutions. With a commitment to open architecture and third party integration, Lenel products deliver seamless implementation and robust management options to meet the most challenging security demands. Some Lenel products are FICAM tested and meet the Federal Information ProcesNAICSg Standard (FIPS) 201

We offer over 230 OnSSI software products. ONSSI products provide a flagship IP Video Security Platform providing Video Management that combines powerful network video recorders with physical security information management functionality for streaming, recording and managing an unlimited number of cameras at multiple sites. An ONSSI platform provides the most user friendly open architecture video management platform with over 2,200 supported camera models from all of the major camera manufacturers worldwide to include intelligent motion and event based recording, plus monitor and control of individual cameras.

3.6 L-3 Unidyne Boon Edam Optical Turnstiles

NAI	Part Number	Product Name	Product Description	GSA Price
334512-1	900 H	Speedlane 900H Barrier Optical Turnstile-High Glass Lane	The Speedlane 900 is a versatile optical turnstile that can easily be adapted to fit the security needs of your entry. First Lane; Consists of two cabinets to create on lane of pasage (Standard Width)	\$ 20,560.92
334512-1	900 HA	Speedlane 900 HA Barrier Optical Turnstile- High Glass Lane	Interlane Cabinets creating additional lanes	\$ 15,270.27
334512-1	900 HW	Speedlane 900 HAW Barrier Optical Turnstile- High Glass Lane	First Lane: Consists of two cabinets to create on lane of passage (Wide/ ADA)	\$ 27,483.45
334512-1	31-200	BoonTouch 31-200 Remote Control	Remote Control Touch Panel	\$ 3,463.81

1. All products have a one year warranty.
2. Price does not include shipping costs.

3.7 iOmniscient Perpetual Licenses

The iOmniscient suite offers an entire range of intelligent surveillance products that operate with existing CCTV infrastructures and are distributed, scalable, and wireless capable.

Notes:

3. Perpetual software license price per camera channel. Keys are generated 10 years at a time, provided hardware is functional.
4. A Gold or Platinum Package is required annually to renew the software licenses.
5. Minimum purchase of two licenses includes detection and identification and a database of 200 records (price valid for centralized architecture, separate quote required for distributed architecture). For Car Park, up to 20 KPH.
6. For example, IQ-100 with IQ-Hawk on a Sub-megapixel camera is IQ-100 + \$280
7. Price is per megapixel (e.g., IQ-100 with IQ-Hawk on a 3 Megapixel camera is IQ-100 + \$2100).
8. Special discount is available if using this product with the iQ Series on the same camera.
- * XXX represents individual IQ product code (e.g., MP-LPD is for IQ-LPD)

Notes:

1. First year software license price per camera channel.
 2. A Gold or Platinum Package is required annually to renew the software licenses.
 3. Minimum purchase of 2 licenses includes detection and identification and a database of 200 records (price valid for centralized architecture, separate quote required for distributed architecture). For Car Park, up to 20 KPH.
 4. For example, IQ-100 with IQ-Hawk on a Sub-megapixel camera is IQ-100 + \$280.
 5. Price is per megapixel (e.g., IQ-100 with IQ-Hawk on a 3 Megapixel camera is IQ-100 + \$2100).
 6. Special discount is available if uNAICSg this product with the iQ Series on the same camera.
- * XXX represents individual IQ product code (e.g., MP-LPD is for IQ-LPD)

4 Labor Category Descriptions

Title	Labor Description
Security Management Consultant (I-IV)	<p>Performs a variety of high-level tasks associated with effectively identifying problems and identifying, assesNAICSg, and implementing security strategies; including strategic planning, organizational assessment and development, policy and procedure development, and technology implementation. Works closely with assigned Program/Project Managers, Task Leads, and other team members to ensure that focus is maintained on resolving problems and completing tasks. Participates in program/in-process reviews with the customer and team; serves as the macro-technical point of contact with the customer. Provides expert guidance at the highest expert/intellectual levels.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 10 years relevant experience II – MA/MS degree or equivalent and 10 years relevant experience III – MA/MS degree or equivalent and 12 years relevant experience IV – MA/MS degree or equivalent and 15 years relevant experience
Program/Project Manager (I-IV)	<p>Responsible for complete program/project development from inception to initiation; demonstrated ability to guide and direct multiple tasks across several functional areas, including use of diverse technologies; expertly manages and controls funds and resources and demonstrated ability to manage complex, multi-task efforts to successful completion. Serves as focal point of contact with customer on technical program issues with management consultant(s), when assigned.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 6 years relevant experience II – BA/BA degree or equivalent and 8 years relevant experience III – BA/BS degree or equivalent and 10 years relevant experience IV – BA/BS degree or equivalent and 12 years relevant experience
Administrative Specialist (I-II)	<p>Provides administrative support to technical and management personnel, including—but not limited to—graphical/documentation planning and support, project administration, program management, event planning and administration, office relocation planning, mail services, records, and data input.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – HS diploma or equivalent II – AA/AS degree or equivalent and 2 years general experience
Exercise Coordinator/ Instructor (I-IV)	<p>Provides training and instruction support, teaching customized training courses in classroom or field/live settings, identifying training and development needs, developing training programs; conducting training appraisals; deviNAICSg lesson plans; developing curricula and training materials for in-service courses as necessary; monitoring and reviewing student progress; maintaining records; and resolving training problems. Oversees training exercises from a remote control station.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 4 years relevant experience II – BA/BA degree or equivalent and 6 years relevant experience III – BA/BS degree or equivalent and 8 years relevant experience IV – BA/BS degree or equivalent and 10 years relevant experience

Title	Labor Description
Incidence Manager/ Emergency Response (I-IV)	<p>Provides project development from inception to deployment, expertise in management and control of funds and resources, demonstrated ability to manage multi-task contracts and/or subcontracts of various levels of complexity. General experience includes increaNAICSg responsibilities within the discipline and/or management. Works directly with the Incident Commander or Federal On-Scene Coordinator and serves as the contractor's NAICSg interface to government management personnel and customer agency representatives. Responsible for formulating and enforcing work standards; assigning contractor schedules; reviewing work discrepancies; superviNAICSg contractor personnel; preparing, reviewing, and submitting required reports; and communicating organizational policies, purpose, and goals to subordinates.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 4 years relevant experience II – BA/BA degree or equivalent and 6 years relevant experience III – BA/BS degree or equivalent and 8 years relevant experience
Security Analyst (I-IV)	<p>Provides intrusion detection, prevention, and network security monitoring support for a variety of security technologies. Provides network security services including networking and network security devices/software such as routers, firewalls, encryption, network and/or host-based intrusion detection, intrusion prevention, security information management, anti-virus tools, vulnerability management, and patch management.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 2 years relevant experience II – BA/BA degree or equivalent and 4 years relevant experience III – BA/BS degree or equivalent and 6 years relevant experience IV – BA/BS degree or equivalent and 8 years relevant experience
Subject Matter Expert (I-IV)	<p>Uses functional and/or subject-matter expertise from direct industry experience to assess the organizational, operational, and functional baseline for law enforcement, homeland defense, emergency preparedness, and security clients. Works with senior government officials and executives to provide industry vision and enterprise strategic direction. May serve as an expert to help agencies identify and engage a range of stakeholders, including local, state, and federal agencies. Guides identification of systems, mission engineering, and buNAICSess process inadequacies and deficiencies that affect the functional area's ability to support/meet organizational threats. Participates in strategy sessions, strategic assessments, and design reviews to validate the enterprise approach and associated work products. Provides expert consulting and advisory expertise in organizational and vulnerability assessments, intelligence and threat analysis, and resolution of highly complex projects and problems. Recognized for expertise and ability to identify industry issues and trends.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 10 years relevant experience II – MA/MA degree or equivalent and 10 years relevant experience III – MA/MS degree or equivalent and 12 years relevant experience IV – MA/MS degree or equivalent and 15 years relevant experience

Title	Labor Description
Security Systems Engineer (I-IV)	<p>Provides security engineering problem definition, analysis, requirements development, and implementation of complex projects and programs. Designs, codes, integrates, tests, deploys, repairs, and maintains security systems and training across all platforms enterprise-wide for the complete system lifecycle. Provides system engineering services for facility, computer, and network activities such as network and systems security; cryptographic protocol development; security modeling and architectures; secure programming; certification and accreditation services; penetration testing; vulnerability assessments; secure network programming, architecture and design; authentication and key establishment; user interface programming; access control; firewalls; public key infrastructure domains; digital certificates; biometrics; smart cards; malicious code analysis; reverse engineering; cryptanalysis and cryptography systems; and information warfare prevention and response services.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 2 years relevant experience II – BA/BA degree or equivalent and 4 years relevant experience III – BA/BS degree or equivalent and 6 years relevant experience IV – BA/BS degree or equivalent and 8 years relevant experience
Engineer (I-IV)	<p>Performs a variety of broad engineering tasks—either independently or under supervision— involving design and implementation, including personnel, hardware, software, systems, logistical, civil, mechanical, chemical, biological, environmental, and support for facilities and equipment. Plans and performs engineering research, develops designs, and performs other assignments in conformance with design, engineering, and customer specifications.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 1 year relevant experience II – BA/BA degree or equivalent and 4 years relevant experience III – BA/BS degree or equivalent and 6 years relevant experience IV – MA/MS degree or equivalent and 7 years relevant experience
Field Engineer (I-IV)	<p>Electronic Engineering Technicians help design, develop, test, manufacture, and repair electrical and electronic equipment, generally under the supervision of a Senior Field Engineer and Project Managers. Perform a variety of tasks depending on project needs.</p> <p>Monitors control units to ensure that the electronic solution and systems are operating efficiently. Tests and inspects equipment to verify that it meets required specifications. Often uses knowledge of electrical engineering technology to diagnose electrical problems. Makes repairs themselves or directs other electrical workers to do them. Consults with engineers and offers advice on power and connectivity. May plan, direct, and record electrical equipment tests or recommend changes to equipment not operating efficiently. Engineering technicians perform a variety of tasks to help engineers, such as assembling and testing experimental electrical and electronic parts, or making changes in parts according to an engineer's instructions. Prepares wiring diagrams, layout drawings, or engineering specifications for new equipment. When a new equipment design has been perfected, electrical and electronic engineering technicians may direct the work crew that produces or installs it.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 2 years relevant experience II – BA/BA degree or equivalent and 4 years relevant experience III – BA/BS degree or equivalent and 8 years relevant experience IV – MA/MS degree or equivalent and 12 years relevant experience

Title	Labor Description
Technician (I-IV)	<p>Maintains and supports operational security/facility management electronic systems with supervision. Installs, operates, and maintains electronic security equipment. Implements system testing and preventive maintenance programs. Performs routine technical security integration functions to support development of security engineering activities such as setup, operation, maintenance, modification, circuit testing, calibration, troubleshooting, and repair of electronic or electro-mechanical systems, experimental design circuitry, prototype models, or specialized test equipment. Works from schematics, logic diagrams, written and verbal descriptions, layouts, and plans. Both installation and maintenance technicians train users. May be responsible for conduits, cabling, and fiber-optic infrastructure removal and installation. Troubleshoots testing, aligns and adjusts complete electronic and computer systems, equipment, or components.</p> <p>Experienced in field installations, troubleshooting, repairs, and onsite operation and maintenance of electronic, electromechanical, and/or mechanical systems, subsystems, and components for software and data/communication networks. Independently installs, operates, maintains, troubleshoots, and/or repairs highly complex mechanical, electronic, or integrated systems. Applies working technical knowledge to routine or complex tasks, troubleshooting and repairing equipment, and performing activities such as taking test measurements, performing test/calibration procedures, observing results, and recording information for evaluation. Possesses technical knowledge and experience to resolve complex problems and trains users.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 1 year relevant experience II – BA/BA degree or equivalent and 3 years relevant experience III – BA/BS degree or equivalent and 6 years relevant experience IV – MA/MS degree or equivalent and 10 years relevant experience
CAD Specialist (I-II)	<p>Prepares engineering drawings manually and uNAICSg computer-aided design (CAD) software, which may involve limited design, to establish complete and accurate data to build and renovate facilities. Prepares detailed drawings of building alterations and additions, including plans, sections, and elevations. Gathers supporting data and prepares detailed maps of institutional property that show dimensions and specifications for building, water lines, sewers, drains, and related information. Makes pictorial and isometric drawings for reports; plots data charts and curves. Prepares detailed layout, assembly, and working drawings; files and indexes drawings. Participates in field surveys, identifying locations and elevations for drawings. Performs related work as required.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – High school diploma or equivalent and 2 years relevant experience II – High school diploma or equivalent and 6 years relevant experience
Training Specialist (I-II)	<p>Develops instructor-led and computer-based training (CBT). Involved in all phases of courseware development and presentation. Completes analysis, design, and development phases of the Instructional Systems Design (ISD) model. Identifies customer training requirements, establishes student knowledge levels, creates training objectives, writes lesson plans, and develops the course outline. Reviews lesson plans, validation criteria, and evaluates training delivery.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 1 year relevant experience II – BA/BA degree or equivalent and 4 years relevant experience

Title	Labor Description
Public Health Analyst (I-IV)	<p>Develops and expands the skills of public health professionals. Supports contract business development, which may include developing and expanding capabilities in the public health domain. Meets with public health clients to gather requirements and track and pursue key opportunities that support the company's strategic goals. Participates in planning, coordinating, implementing, and evaluating public health programs. Helps develop guidelines for state and local health departments on a variety of health topics. Participates in developing and testing systems for use in public health emergencies. Maintains records, inventory, and reports for program preparedness and training activities. Maintains an effective working relationship with assigned team members at public health project areas.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 4 years relevant experience II – BA/BA degree or equivalent and 6 years relevant experience III – BA/BS degree or equivalent and 10 years relevant experience IV – MA/MS degree or equivalent and 10 years relevant experience
Logistics Analyst (I-IV)	<p>Ensures that the most effective and economical support is planned and applied in all lifecycle stages. Applies ILS "elements" to systems and programs, including the maintenance plan; labor and personnel; supply support; test equipment; training and training devices; technical data; computer resources support, packaging, handling, storage, and transportation; and facilities. Develops logistic concepts early in the lifecycle, prepares the ILS Plan, coordinates support deficiency resolution, and analyzes support effectiveness. Helps formulate decisions on long- and short-range logistics program planning and execution. Compiles and analyzes data that describes the availability and state of system support processes, system operations and maintenance personnel, training on support systems, long- and short-range planning for system support, and responsiveness of program and logistics functions to meet support requirements.</p> <p>Typical Position Qualifications:</p> <ul style="list-style-type: none"> I – BA/BS degree or equivalent and 2 years relevant experience II – BA/BA degree or equivalent and 4 years relevant experience III – BA/BS degree or equivalent and 8 years relevant experience IV – BA/BS degree or equivalent and 12 years relevant experience

Substitution/Equivalency:

General Educational Development (GED) certificate or vocational degree = high school diploma

Associate of Arts or Sciences (AA/AS) = two years general experience

Bachelor of Arts or Sciences (BA/BS) = six years general experience

Master of Arts or Sciences (MA/MS) = four years general experience

Ph.D. = three years general experience

Example: BA/BS + four years general experience = MA/MS degree
