Loitering Solution offers detection of loiterers in un-crowded regions at times when people are not expected to linger around (areas near entrances; sensitive regions; and sidewalks in residential areas). Contains a bundle of advanced mechanisms to deal with numerous problems usually encountered in an outdoor surveillance scene. The solution is virtually calibration-free as part of the Lenel IntelligentVideo Suite. (Requires Server License Key Number for every upgrade order). Intrusion Detection Solution - detects the presence of an object in the Region of Interest. Differentiates between human to vehicle to small animals. Supports also day/night camera with IR illumination. Compensates for vibrations in a windy day. Detects intruders also on the background of vegetation; but with limited object differentiation capabilities. (Requires Server License Key Number for every upgrade order).
