

Cloud-Enabled Digital Transformation

Enterprise Digital Transformation

CACI is an industry leader in large-scale cloud infrastructure modernization and transformation efforts across the Department of Defense (DoD), the Intelligence Community (IC), and other U.S. Government agencies. We help our customers develop and implement their enterprise cloud solution strategy. We deliver expertise and technology in Microsoft 365® implementation, migrating infrastructure to the cloud, transforming applications to cloud-native architectures, and optimizing cloud resource utilization for cost savings. We have extensive expertise in guiding customers through digital transformations, including application rationalization, business process re-design, integrated security, and data analytics. We work with customers on what to modernize and bring to the cloud, along with the resulting optimization for operational security and agility. We are experts in modernizing technology to secure and deliver data, **optimizing infrastructure for the future.**

A *Fortune* World's Most Admired Company

EXPERTISE AND TECHNOLOGY FOR NATIONAL SECURITY

CACI
EVER VIGILANT

Features

- Migration and modernization of on-premise, traditional infrastructure to the cloud, including multi-cloud solutions
- Migration and transformation of applications to cloud-native architecture
- Advisory services for strategic enterprise cloud solutions
- Rapid Authority to Operate (ATO) accreditation
- Infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS)
- Infrastructure-as-code and automation framework, empowered by CACI's Agile Solution Factory (ASF)
- Artificial intelligence/machine learning-enabled analytics, transparent integrated operations dashboards, and automated testing
- Amazon Web Services™ (AWS) Premier Consulting Partner, Public Sector Partner, and Authorized Reseller
- Microsoft® Cloud Solutions Provider and Gold Partner
- Catalog purchasing capability
- Identity and access management; zero trust architecture
- Microsoft 365 migration at scale

Benefits

- Proven experience to deliver infrastructure modernization at scale
- Our CACI Cloud Solution Pack (C2SP) accelerates cloud planning, migration, and utilization
- Strategic partnerships maximize infrastructure optimization expertise and technology

Optimizing the Enterprise for the Future

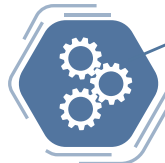

Cloud Expertise

Our cloud experts use our industry-leading Agile methods to rapidly design and deploy modular cloud solutions that reduce complexity, cost, and risk while ensuring security and interoperability. We protect cloud-hosted infrastructure, safeguard critical data, and identify and mitigate emerging threats.

Cloud Technology

CACI delivers industry-leading IaaS, DevSecOps, machine learning, and big data solutions that transform customers' information technology environments. These capabilities are accelerated by using a common pipeline, classified/unclassified development, and open-source libraries to enable actionable data and operations intelligence.

Cloud Tradecraft

CACI has the resources and cloud solutions provider ecosystem to deliver services rapidly and securely. Our CACI Cloud Solution Pack (C2SP) accelerates customers' utilization and return on investment through years of resource optimization and cost savings.

CACI - Leading the Way in Digital Transformation

- CACI successfully carried out the largest cloud application migration experience in the U.S. Government
- Over 200 applications were moved from legacy architecture to a commercial secure cloud for an IC customer
- DevSecOps implementation of an at-scale big data fusion and visualization tool for the IC
- Consolidation, modernization, and migration of on-premise application solutions to the cloud for DoD, used by approximately four million people
- Leading the SaaS Microsoft 365 migration for 1.45 million U.S. Army users
- Implemented the first zero-trust unclassified desktop for the IC
