(i) The CPIF target cost for (4000-4019) and if exercised CLINS (7000-7019, 7100-7119) shall be entered in the Target Cost column in the INCENTIVE FEE TABLE above. The Target Cost is determined by multiplying the allowable hours worked (Qty (*Hrs*)), including subcontractor hours, corresponding to each CLIN by the target cost per hour (Target Cost/Hour (*Rate*)). The target cost per hour (Target Cost/Hour (*Rate*)) shall include all proposed cost (including cost of money (if proposed) and subcontractor costs) for the corresponding CLIN. Fees charged by subcontractors shall also be included in the target cost.

(ii) The CPIF target fee for (4000-4019) and if exercised CLINS (7000-7019, 7100-7119) shall be determined by multiplying the allowable hours worked (Qty (*Hrs*)), including subcontractor hours, for the corresponding CLIN by the target fee per hour (Target Fee/Hour (TF)) from the INCENTIVE FEE TABLE. This shall be entered in the Target Fee (Target Fee (Hrs \* TF)) column of the INCENTIVE FEE TABLE above.

(iii) The share ratio for the CPIF portion of the fee structure is 50/50 (50% Government and 50% Contractor) for both under-runs and over-runs. The fee earned under the CPIF portion of the fee structure will be based on the total allowable cost incurred by the contractor in comparison to the *final* target cost for each of the aforementioned labor CLINs. See the Incentive Fee clause (FAR 52.216-10) in Section I of this Task Order.

**(iv) Performance-based Reduction of Incentive Fee:**

a) The purpose of the Performance-based Reduction of Incentive Fee is to provide an incentive to maintain performance at a satisfactory or better level.

b) In the event the contractor receives a less than satisfactory rating in ANY non-cost rated area in CPARS the calculated Incentive Fee (subject to minimum and maximum percentages) will be decreased by However, as a result of this calculation, the Government will not reduce fee to less than the minimum fee established in the INCENTIVE FEE TABLE above.

c) The fee decrease will be determined by first calculating the incentive fee and adjusting for minimum and maximum fees as outlined in the INCENTIVE FEE TABLE above. If, after this calculation, the Contractor is at minimum fee no further adjustments will be made. After this fee is calculated, and adjusted if necessary for minimum or maximum fees, the resultant fee will be reduced by or to the minimum fee set forth in the INCENTIVE FEE TABLE above, whichever is greater. The lost fee shall be unrecoverable and will not roll over to a future period.

d) In the event the contractor receives a less than satisfactory rating in ANY non-cost rated area in CPARS in the following CPARS evaluation, the Incentive Fee will be This (for the first CPARS period and for the following period) reduction will again be calculated as described in (iv)(c) above using The maximum fee reduction is The lost fee shall be unrecoverable and will not roll over to a future period.

e) The *Performance-based Reduction of Incentive Fee* shall be applied to the contract year assessed in CPARS and shall remain in place for all future periods until a satisfactory or better rating is received in CPARS for each non-cost factor. At that time, the Target Fee and Maximum Fee will return to the full proposed value for the evaluated period. Any fee lost in prior periods shall be unrecoverable and will not roll over to a current or future period. If the contractor has invoiced more fee than ultimately earned in the

period, the contractor shall either return the over-billed sum to the Government or adjust future billings to offset the over billed sum.

f) In the event the period of performance being assessed in CPARS does not coincide exactly with the contract year period of performance, the *Performance-based Reduction of Incentive Fee* shall apply to the contract year where the CPARS period assessed covers the majority of performance. For example, if a CPARS assessment period covers 12 months of a 14-month contract year, that CPARS assessment shall be sufficient to determine the *Performance-based Reduction of Incentive Fee* for the entire contract year.

(v) **Final Costs & Fees.** Actual resulting fee will be calculated at the end of the POP for each CLIN. Final cost and fee are shown in the following table.

## **SECTION C DESCRIPTIONS AND SPECIFICATIONS**

### **PEO IWS PROFESSIONAL SUPPORT SERVICES STATEMENT OF WORK**

#### **(ACQUISITION SUPPORT & INTEGRATED LOGISTICS SUPPORT SERVICES)**

## **1.0 INTRODUCTION**

The Program Executive Office for Integrated Warfare Systems (PEO IWS) is seeking professional support services (PSS) for its broad Business Operations to assist the Government's existing personnel, knowledge and processes. Specifically, PEO IWS requires PSS for Acquisition and Integrated Logistics Support for the PEO IWS portfolio of programs. PEO IWS leads a professional and experienced organization that delivers Enterprise solutions for Naval Warfare Systems in the areas of Air Defense, Missile Defense, Undersea Warfare, Anti-Submarine Warfare, and Anti-Surface Warfare. These solutions must operate seamlessly and effectively at the unit level and within the Fleet and Joint Forces and provide technically superior war fighting capability. The PEO IWS mission is to take the fight to the enemy and win, across a spectrum of uncontested and contested maritime environments and with Force compositions that can include a dynamic mix of small mission-tailorable and large multi-mission-capable units and formations of manned and unmanned platforms. This demands flexible and interoperable solutions from PEO IWS programs and a complex mix of cross-program management and leadership practices from our civilian and military personnel, supported by PSS partners. Collectively, this team must provide effective and suitable deliveries of integrated warfare systems and technology, installed on a variety of platforms: surface ships, submarines, fixed wing and rotary aircraft, ground mobile and transportable systems. To meet this challenge, PEO IWS must deliver capabilities that cut across specific ship, aircraft, or system platforms. PEO IWS must also deliver capabilities in accordance with DoD's Trusted Systems Network (TSN) strategy which integrates robust systems engineering, supply chain risk management (SCRM), security, counterintelligence, intelligence, information assurance cybersecurity, hardware and software assurance, and information systems security engineering disciplines to manage risks to system integrity and trust.

## **2.0 BACKGROUND**

The Navy's Integrated Warfare Systems Program Executive Office was established in November 2002. According to its charter, PEO IWS is responsible for surface ship and submarine combat systems, missiles (except the Trident ballistic missile and Tomahawk cruise missile), radars, launchers (except Trident), guns, electronic warfare, acoustic, electro-optic, infra-red sensors, navigation and command and control systems. It is directed to develop, integrate and field combat systems on all ships and submarines, and coordinate anti-submarine warfare area capability development across other PEOs.

Currently, PEO IWS is focused on enhancing mission capability across the surface fleet and submarine community with faster, more affordable, and interoperable product upgrades that pace the threat through the following goals: designing systems to achieve programmatic objectives; eliminating obsolete hardware and software; introducing network-based Commercial off the

Shelf (COTS) and Open Architecture Computing Environments (OACE); acquiring appropriate data and software rights to satisfy current/future needs; and reducing combat and weapon systems variants. The intended outcome of these product implementation goals is greater returns on investment through the promotion of minimal development/non-recurring efforts that can be applied to multiple ship classes and mission areas, extensibility into other defense markets, reduction in Weapons System variants, and reduction in burdensome end-user work-arounds.

organizations as necessary.

## 6.2. SECURITY CLEARANCE

The Department of Defense Contract Security Classification Specification (DD Form 254) (Attachment 1) provides the Security by the Department Industrial Security Program prior to starting work on tasks requiring clearances. Work to be performed under this Task Order may require access to Communication Security (COMSEC) material and equipment. Access to classified spaces and material and generation of classified material shall be in accordance with the attached DD Form 254.

All contractor personnel associated with and/or performing work relative to the resultant contract must be United States citizens and shall be cleared to a minimum of the SECRET level at time of contract award. There may be occasions when Top Secret access will be required. The Contractor shall have the ability to process classified information up to the Top Secret level. This effort may require incidental access to SCI and full access to non-SCI intelligence data. Access to intelligence data shall be through the NAVSEA STILO.

This effort will require access to Sensitive Compartmented Information (SCI) and full access to non-SCI intelligence data. PEO IWS has initiated a 30-Year Combat Power strategic planning process. This has involved establishing a War Room to serve as a strategic planning center for decision-making, cross-Navy and service coordination, as well as Program Objective Memorandum (POM) development. It has become clear that to develop accurate and comprehensive strategic recommendations and POM submissions including information at higher classification levels will be required. PEO IWS is establishing a fully informed War Room in an existing Sensitive Compartmented Information Facility (SCIF) on the Washington Navy Yard. The War Room will contain performance assessments of existing Navy capabilities against the most current threats, developed through analysis and Modeling & Simulation (M&S). To support the M&S effort, PEO IWS has brought a Threat Engineering Team from the Office of Naval Intelligence (ONI) into PEO IWS to develop technically accurate threat models. In order to enable PEO IWS and Navy leadership to have the most comprehensive picture possible of threats and the U.S. Navy's capabilities against those threats, Top Secret SCI access are required. Intelligence data is an integral component of these threat representations and support for this effort will require access to SCI and non-SCI intelligence data and briefings from the following Agencies:

- Defense Advanced Research Project Office (DARPA)
- Joint Staff, Force Structure Resources and Assessment (JS/J8)
- Office of Naval intelligence (ONI)
- Navy Research Laboratory (NRL)
- Office of Naval Research (ONR)
- National Air and Space Intelligence Command (NASIC)

Access to Top Secret and SCI access will allow the contractor to work seamlessly with critical design agents and analysts, along with resource providers to ensure recommended architectures and tactical situations address the most representative threats for classified acquisition programs. Recommendations for concept development, framework analysis, and test data analysis for integrated systems can only be completed with SCI access. In addition, this access will allow for

critical experiment design with current day intelligence representation and execution; subsequently leading to critical analysis, review and follow up reporting to the Combat System Engineering Agent (CSEA) which will lead to changes and improvements within the Combat System, saving both cost and schedule to the various program office. Below is a simplified list of functions within the current contract that will require such access. They are:

- Test Planning, Execution, Analysis and Reporting
- Modeling and Simulation
- Threat Analysis to include specific system capabilities and limitations
- Advanced and Future Combat and Weapon System Performance Capabilities and Limitations
- Integrated Air Missile Defense Programs

Contractor support will also include management and further development of the fully informed War Room and use of this space to develop operational architectures and evaluate those architectures in realistic scenarios, concepts of employment for systems, and tactical situations set well into the future. Additionally, contracts will conduct assessment of potential solutions based on current and future threats that will, of necessity, require frequent access to classified intelligence information and discussions briefings about threat characteristics. This effort will be supported by both threat engineers, as well as members of the PEO IWS Senior Advisory team.

Select contract personnel shall be given access to SIPRNet resources necessary to execute the tasks and responsibilities outlined throughout this SOW. Physical access to classified data and information systems shall be limited to accredited Government and other contractor facilities managed and supported independently from this contract. However, the contractor shall use the SIPRNET only in support of this contract and for no other purpose. Although in order to have access, contractor must receive a PEO IWS security briefing.

## **63 TRAVEL**

## **ACCESS TO PROPRIETARY DATA OR COMPUTER SOFTWARE (NAVSEA)(JUN 1994)**

(a) Performance under this contract may require that the Contractor have access to technical data, computer software, or other sensitive data of another party who asserts that such data or software is proprietary. If access to such data or software is required or to be provided, the Contractor shall enter into a written agreement with such party prior to gaining access to such data or software. The agreement shall address, at a minimum, (1) access to, and use of, the proprietary data or software exclusively for the purposes of performance of the work required by this contract, and (2) safeguards to protect such data or software from unauthorized use or disclosure for so long as the data or software remains proprietary. In addition, the agreement shall not impose any limitation upon the Government or its employees with respect to such data or software. A copy of the executed agreement shall be provided to the Contracting Officer. The Government may unilaterally modify the contract to list those third parties with which the Contractor has agreement(s).

(b) The Contractor agrees to: (1) indoctrinate its personnel who will have access to the data or software as to the restrictions under which access is granted; (2) not disclose the data or software to another party or other Contractor personnel except as authorized by the Contracting Officer; (3) not engage in any other action, venture, or employment wherein this information will be used, other than under this contract, in any manner inconsistent with the spirit and intent of this requirement; (4) not disclose the data or software to any other party, including, but not limited to, joint venturer, affiliate, successor, or assign of the Contractor; and (5) reproduce the restrictive stamp, marking, or legend on each use of the data or software whether in whole or in part.

(c) The restrictions on use and disclosure of the data and software described above also apply to such information received from the Government through any means to which the Contractor has access in the performance of this contract that contains proprietary or other restrictive markings.

(d) The Contractor agrees that it will promptly notify the Contracting Officer of any attempt by an individual, company, or Government representative not directly involved in the effort to be performed under this contract to gain access to such proprietary information. Such notification shall include the name and organization of the individual, company, or Government representative seeking access to such information.

(e) The Contractor shall include this requirement in subcontracts of any tier which involve access to information covered by paragraph (a), substituting "subcontractor" for "Contractor" where appropriate.

(f) Compliance with this requirement is a material requirement of this contract.

## **COMPUTER SOFTWARE AND/OR COMPUTER DATABASE(S) DELIVERED TO AND/OR RECEIVED FROM THE GOVERNMENT (NAVSEA) (APR 2004)**

(a) The Contractor agrees to test for viruses all computer software and/or computer databases, as defined in the clause entitled "RIGHTS IN NONCOMMERCIAL COMPUTER SOFTWARE AND NONCOMMERCIAL COMPUTER SOFTWARE DOCUMENTATION" (DFARS 252.227- 7014), before delivery of that computer software or computer database in whatever

media and on whatever system the software is delivered. The Contractor warrants that any such computer software and/or computer database will be free of viruses when delivered.

(b) The Contractor agrees to test any computer software and/or computer database(s) received from the Government for viruses prior to use under this contract.

(c) Unless otherwise agreed in writing, any license agreement governing the use of any computer software to be delivered as a result of this contract must be paid-up and perpetual, or so nearly perpetual as to allow the use of the computer software or computer data base with the equipment for which it is obtained, or any replacement equipment, for so long as such equipment is used. Otherwise the computer software or computer database does not meet the minimum functional requirements of this contract. In the event that there is any routine to disable the computer software or computer database after the software is developed for or delivered to the Government, that routine shall not disable the computer software or computer database until at least twenty-five calendar years after the delivery date of the affected computer software or computer database to the Government.

(d) No copy protection devices or systems shall be used in any computer software or computer database delivered under this contract to restrict or limit the Government from making copies. This does not prohibit license agreements from specifying the maximum amount of copies that can be made.

(e) Delivery by the Contractor to the Government of certain technical data and other data is now frequently required in digital form rather than as hard copy. Such delivery may cause confusion between data rights and computer software rights. It is agreed that, to the extent that any such data is computer software by virtue of its delivery in digital form, the Government will be licensed to use that digital-form data with exactly the same rights and limitations as if the data had been delivered as hard copy.

(f) Any limited rights legends or other allowed legends placed by a Contractor on technical data or other data delivered in digital form shall be digitally included on the same media as the digital-form data and must be associated with the corresponding digital-form technical data to which the legends apply to the extent possible. Such legends shall also be placed in human-readable form on a visible surface of the media carrying the digital-form data as delivered, to the extent possible.

"Person" as used herein includes Corporations, Partnerships, Joint Ventures, and other business enterprises.

(b) The Contractor warrants that to the best of its knowledge and belief, and except as otherwise set forth in the contract, the Contractor does not have any organizational conflict of interest(s) as defined in paragraph (a).

(c) It is recognized that the effort to be performed by the Contractor under this contract may

create a potential organizational conflict of interest on the instant contract or on a future acquisition. In order to avoid this potential conflict of interest, and at the same time to avoid prejudicing the best interest of the Government, the right of the Contractor to participate in future procurement of equipment and/or services that are the subject of any work under this contract shall be limited as described below in accordance with the requirements of FAR 9.5.

(d) FAR 9.5:

(1) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information provided to the Contractor by the Government during or as a result of performance of this contract. Such information includes, but is not limited to, information submitted to the Government on a confidential basis by other persons.

Further, the prohibition against release of Government provided information extends to cover such information whether or not in its original form, e.g., where the information has been included in Contractor generated work or where it is discernible from materials incorporating or based upon such information. This prohibition shall not expire after a given period of time.

(2) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information generated or derived during or as a result of performance of this contract. This prohibition shall expire after a period of three years after completion of performance of this contract.

(3) The prohibitions contained in subparagraphs (d)(1) and (d)(2) shall apply with equal force to any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may merge or affiliate, or any successor or assign of the Contractor. The terms of paragraph (f) of this Special Contract Requirement relating to notification shall apply to any release of information in contravention of this paragraph (d).

(e) The Contractor further agrees that, during the performance of this contract and for a period of three years after completion of performance of this contract, the Contractor, any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may subsequently merge or affiliate, or any other successor or assign of the Contractor, shall not furnish to the United States Government, either as a prime contractor or as a subcontractor, or as a consultant to a prime contractor or subcontractor, any system, component or services which is the subject of the work to be performed under this contract. This exclusion does not apply to any recompetition for those systems, components or services furnished pursuant to this contract. As provided in FAR 9.505-2, if the Government procures the system, component, or services on the basis of work statements growing out of the effort performed under this contract, from a source other than the contractor, subcontractor, affiliate, or assign of either, during the course of performance of this contract or before the three year period following completion of this contract has lapsed, the Contractor may, with the authorization of the cognizant Contracting Officer, participate in a subsequent procurement for the same system, component, or service. In other words, the Contractor may be authorized to compete for procurement(s) for systems, components or services subsequent to an intervening procurement.

(f) The Contractor agrees that, if after award, it discovers an actual or potential organizational conflict of interest, it shall make immediate and full disclosure in writing to the Contracting Officer. The notification shall include a description of the actual or potential organizational conflict of interest, a description of the action which the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the conflict, and any other relevant information that would assist the Contracting Officer in making a determination on this matter. Notwithstanding this notification, the Government may terminate the contract for the convenience of the Government if determined to be in the best interest of the Government.

(g) Notwithstanding paragraph (f) above, if the Contractor was aware, or should have been aware, of an organizational conflict of interest prior to the award of this contract or becomes, or should become, aware of an organizational conflict of interest after award of this contract and does not make an immediate and full disclosure in writing to the Contracting Officer, the Government may terminate this contract for default.

(h) If the Contractor takes any action prohibited by this requirement or fails to take action required by this requirement, the Government may terminate this contract for default.

(i) The Contracting Officer's decision as to the existence or nonexistence of an actual or potential organizational conflict of interest shall be final.

(j) Nothing in this requirement is intended to prohibit or preclude the Contractor from marketing or selling to the United States Government its product lines in existence on the effective date of this contract; nor, shall this requirement preclude the Contractor from participating in any research and development or delivering any design development model or prototype of any such equipment.

Additionally, sale of catalog or standard commercial items are exempt from this requirement.

(k) Further restrictions are in accordance with FAR 9.505-1, providing systems engineering and technical direction:

(a) A contractor that provides systems engineering and technical direction for a system but does not have overall contractual responsibility for its development, its integration, assembly, and checkout, or its production shall not—

(1) Be awarded a contract to supply the system or any of its major components; or

(2) Be a subcontractor or consultant to a supplier of the system or any of its major components.

(b) Systems engineering includes a combination of substantially all of the following activities: determining specifications, identifying and resolving interface problems, developing test requirements, evaluating test data, and supervising design. Technical direction includes a combination of substantially all of the following activities: developing work statements, determining parameters, directing other contractors' operations, and resolving technical controversies. In performing these activities, a contractor occupies a highly influential and responsible position in determining a system's basic concepts and supervising their execution by other contractors. Therefore this contractor should not be in a position to make decisions favoring its own products or capabilities.

(l) The Contractor shall promptly notify the Contracting Officer, in writing, if it has been tasked to evaluate or advise the Government concerning its own products or activities or those of a competitor in order to ensure proper safeguards exist to guarantee objectivity and to protect the Government's interest.

(m) The Contractor shall include this requirement in subcontracts of any tier which involve access to information or situations/conditions covered by the preceding paragraphs, substituting "subcontractor" for "contractor" where appropriate.

(n) The rights and remedies described herein shall not be exclusive and are in addition to other rights and remedies provided by law or elsewhere included in this contract.

(o) Compliance with this requirement is a material requirement of this contract.

## **NON-DISCLOSURE AGREEMENTS**

Contractor personnel shall be provided a Statement of Non-disclosure of Information (Attachment 6) which shall be completed and signed by each employee as a condition for each employee providing services under this Task Order. ## SECTION G CONTRACT ADMINISTRATION DATA

### HQ G-2-0009 SUPPLEMENTAL INSTRUCTIONS REGARDING ELECTRONIC INVOICING (NAVSEA) (SEP 2012)

(a) The Contractor agrees to segregate costs incurred under this contract/task order (TO), as applicable, at the lowest level of performance, either at the technical instruction (TI), sub line item number (SLIN), or contract line item number (CLIN) level, rather than on a total contract/TO basis, and to submit invoices reflecting costs incurred at that level. Supporting documentation in Wide Area Workflow (WAWF) for invoices shall include summaries of work charged during the period covered as well as overall cumulative summaries by individual labor categories, rates, and hours (both straight time and overtime) invoiced; as well as, a cost breakdown of other direct costs (ODCs), materials, and travel, by TI, SLIN, or CLIN level. For other than firm fixed price subcontractors, subcontractors are also required to provide labor categories, rates, and hours (both straight time and overtime) invoiced; as well as, a cost breakdown of ODCs, materials, and travel invoiced. Supporting documentation may be encrypted before submission to the prime contractor for WAWF invoice submittal. Subcontractors may email encryption code information directly to the Contracting Officer (CO) and Contracting Officer Representative (COR). Should the subcontractor lack encryption capability, the subcontractor may also email detailed supporting cost information directly to the CO and COR; or other method as agreed to by the CO.

(b) Contractors submitting payment requests and receiving reports to WAWF using either Electronic Data Interchange (EDI) or Secure File Transfer Protocol (SFTP) shall separately send an email notification to the COR and CO on the same date they submit the invoice in WAWF. No payments shall be due if the contractor does not provide the COR and CO email notification as required herein.

#### 252.204-0005 Line Item Specific: by Cancellation Date. (SEP 2009)

The payment office shall make payment using the ACRN with the earliest cancellation date first, exhausting all funds in that ACRN before disbursing funds from the next. In the event there is more than one ACRN associated with the same cancellation date, the payment amount shall be disbursed from each ACRN with the same cancellation date in the same proportion as the amount of funding obligated for each ACRN with the same cancellation date.

#### 252.204-7006 BILLING INSTRUCTIONS (OCT 2005)

When submitting a request for payment, the Contractor shall—

- (a) Identify the contract line item(s) on the payment request that reasonably reflect contract work performance; and
- (b) Separately identify a payment amount for each contract line item included in the payment request.

(d) The Contractor shall segregate costs for the performance of incrementally funded CLINs/SLINs from the costs of performance of fully funded CLINs/SLINs.

#### **LEVEL OF EFFORT – ALTERNATE 1 (MAY 2010)**

(a) The Contractor agrees to provide the total level of effort specified in the next sentence in performance of the work described in Sections B and C of this contract. The total level of effort for the performance of this contract shall be total man-hours including surge of direct labor, including subcontractor direct labor for those subcontractors specifically identified in the Contractor's proposal as having hours included in the proposed level of effort.

(b) Of the total man-hours of direct labor set forth above, it is estimated that 2 man-hours are uncompensated effort.

Uncompensated effort is defined as hours provided by personnel in excess of 40 hours per week without additional compensation for such excess work. All other effort is defined as compensated effort. If no effort is indicated in the first sentence of this paragraph, uncompensated effort performed by the Contractor shall not be counted in fulfillment of the level of effort obligations under this contract.

(c) Effort performed in fulfilling the total level of effort obligations specified above shall only

include effort performed in direct support of this contract and shall not include time and effort expended on such things as (local travel to and from an employee's usual work location), uncompensated effort while on travel status, truncated lunch periods, work (actual or inferred) at an employee's residence or other non-work locations (except as provided in paragraph (i) below), or other time and effort which does not have a specific and direct contribution to the tasks described in Sections B and C.

(d) The level of effort for this contract shall be expended at an average rate of approximately hours per week. It is understood and agreed that the rate of man-hours per month may fluctuate in pursuit of the technical objective, provided such fluctuation does not result in the use of the total man-hours of effort prior to the expiration of the term hereof, except as provided in the following paragraph.

(e) If, during the term hereof, the Contractor finds it necessary to accelerate the expenditure of direct labor to such an extent that the total man-hours of effort specified above would be used prior to the expiration of the term, the Contractor shall notify the Contracting Officer in writing setting forth the acceleration required, the probable benefits which would result, and an offer to undertake the acceleration at no increase in the estimated cost or fee together with an offer, setting forth a proposed level of effort, cost breakdown, and proposed fee, for continuation of the work until expiration of the term hereof. The offer shall provide that the work proposed will be subject to the terms and conditions of this contract and any additions or changes required by then current law, regulations, or directives, and that the offer, with a written notice of acceptance by the Contracting Officer, shall constitute a binding contract. The Contractor shall not accelerate any effort until receipt of such written approval by the Contracting Officer. Any agreement to accelerate will be formalized by contract modification.

(f) The Contracting Officer may, by written order, direct the Contractor to accelerate the expenditure of direct labor such that the total man-hours of effort specified in paragraph (a) above would be used prior to the expiration of the term. This order shall specify the acceleration required and the resulting revised term. The Contractor shall acknowledge this order within five days of receipt.

(g) The Contractor shall provide and maintain an accounting system, acceptable to the Administrative Contracting Officer and the Defense Contract Audit Agency (DCAA), which collects costs incurred and effort (compensated and uncompensated, if any) provided in fulfillment of the level of effort obligations of this contract. The Contractor shall indicate on each invoice the total level of effort claimed during the period covered by the invoice, separately identifying compensated effort and uncompensated effort, if any.

(h) Within 45 days after completion of the work under each separately identified period of performance hereunder, the Contractor shall submit the following information in writing to the Contracting Officer with copies to the cognizant Contract Administration Office and to the DCAA office to which vouchers are submitted: (1) the total number of man-hours of direct labor expended during the applicable period; (2) a breakdown of this total showing the number of man-hours expended in each direct labor classification and associated direct and indirect costs; (3) a breakdown of other costs incurred; and (4) the Contractor's estimate of the total allowable cost incurred under the contract for the period. Within 45 days after completion of the work under the contract, the Contractor shall submit, in addition, in the case of a cost underrun; (5) the

amount by which the estimated cost of this contract may be reduced to recover excess funds. All submissions shall include subcontractor information.

(i) Unless the Contracting Officer determines that alternative worksite arrangements are detrimental to contract performance, the Contractor may perform up to 10% of the hours at an alternative worksite, provided the Contractor has a company-approved alternative worksite plan. The primary worksite is the traditional "main office" worksite. An alternative worksite means an employee's residence or a telecommuting center. A telecommuting center is a geographically convenient office setting as an alternative to an employee's main office. The Government reserves the right to review the Contractor's alternative worksite plan. In the event performance becomes unacceptable, the Contractor will be prohibited from counting the hours performed at the alternative worksite in fulfilling the total level of effort obligations of the contract. Regardless of work location, all contract terms and conditions, including security requirements and labor laws, remain in effect. The Government shall not incur any additional cost nor provide additional equipment for contract performance as a result of the Contractor's election to implement an alternative worksite plan.

(j) Notwithstanding any of the provisions in the above paragraphs and subject to the LIMITATION OF FUNDS or LIMITATION OF COST clauses, as applicable, the period of performance may be extended and the estimated cost may be increased in order to permit the Contractor to provide all of the man-hours listed in paragraph (a) above. The contractor shall continue to be paid fee for each man-hour performed in accordance with the terms of the contract.

CONTRACT NO. N00178-04-D-4026	DELIVERY ORDER NO. N00178-04-D-4026-EH08	AMENDMENT/MODIFICATION NO. 58	PAGE 305 of 455	FINAL
----------------------------------	---	----------------------------------	--------------------	-------

(b) Technical instructions must be within the general scope of work stated in the contract. Technical instructions may not be used to: (1) assign additional work under the contract; (2) direct a change as defined in the "CHANGES" clause of this contract; (3) increase or decrease the contract price or estimated contract amount (including fee), as applicable, the level of effort, or the time required for contract performance; or (4) change any of the terms, conditions or specifications of the contract.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the contract or is inconsistent with this requirement, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Contracting Officer that the technical instruction is within the scope of this contract.

(d) Nothing in the foregoing paragraph shall be construed to excuse the Contractor from performing that portion of the contractual work statement which is not affected by the disputed technical instruction.

#### **SUBSTITUTION OF PERSONNEL (SEP 1990)**

(a) The Contractor agrees that a partial basis for award of this contract is the list of key personnel proposed. Accordingly, the Contractor agrees to assign to this contract those key persons whose resumes were submitted with the proposal necessary to fulfill the requirements of the contract. No substitution shall be made without prior notification to and concurrence of the Contracting Officer in accordance with this requirement.

(b) All proposed substitutes shall have qualifications equal to or higher than the qualifications of the person to be replaced.
