Supply Chain Management

Bringing Modernization and Agility to the Tactical Edge

CACI brings domain expertise, agility, and transparency in the delivery of mission-essential systems for the enterprise and at the tactical edge for border protection, humanitarian efforts, food and supply distribution, ship maintenance, and operational medicine. We implement, secure, integrate, sustain, modernize, and transform enterprise resource planning (ERP), supply chain systems and applications at scale. We maximize the business value these systems generate – delivering cost savings, process efficiencies, accessibility to data, and robust analytics for rapid decision-making.

CACI leans forward, innovating with the latest technologies, artificial intelligence, and Robotic Process Automation driven to improve efficiency and effectiveness for our customers. Our industry-leading Agile Solution Factory (ASF) processes provide transparency into delivery, enabling our proven framework of people, processes, and tools to drive results at a higher delivery velocity and speed them to market. CACI's advanced analytics and operations dashboards provide transparency into operational status, areas for efficiency improvement, and performance measures. Our approach amplifies our ability to sustain applications and systems, and then rapidly deliver the modernization that advances capabilities for the dynamic environments and critical missions we support. **We deliver modernization at the speed of mission.**

EXPERTISE AND **TECHNOLOGY** FOR NATIONAL SECURITY

CACI
EVER VIGILANT

Features

- Technology-agnostic ERP modernization and transformation

- Application modernization and transformation

- Operational medicine solutions

- Industry-leading Agile Solution Factory (ASF)

- DevSecOps at scale

- Deep supply chain domain expertise

- Model-based systems engineering (MBSE) digital engineering

- Cloud migration at scale to Amazon Web Services, Microsoft Azure, or hybrid cloud environment

- Integrated, advanced, and predictive analytics visualized through operations dashboards

- Robotic Process Automation

- Artificial intelligence solutions

- Expertise and strategic partnerships with Salesforce, ServiceNow, SAP, and other leading technology providers

- RMF Eagle Risk Management Framework solution

- Rapid Authority to Operate accreditation

Modernization and Sustainment for Any Mission

Modernization and operations and maintenance (O&M) of U.S. Department of Agriculture and U.S. Agency for International Development's food acquisition and distribution system supporting 310 million people in 46 countries

Modernization and O&M of more than 100+ systems supporting border patrol agents

Development and support of worldwide medical command and control, manpower and training, and medical surveillance and reporting applications for service members in every Department of Defense service agency

Development of operational logistics systems for more than 1,000 afloat and ashore sites and 150,000+ daily users across the combatant navy, the civilian mariners (Military Sealift Command), and the U.S. Coast Guard

Modernization and O&M of the U.S. Marine Corps' logistic system processing 2.25 million daily transactions

Transparency to the Last Tactical Mile

CACI delivers transparency into every aspect of our sustainment and modernization efforts. We're data-driven, utilizing advanced analytics to improve performance, secure systems, develop new capabilities, deliver efficiencies, and improve the effectiveness of the systems and applications enabling our customers' missions. Our integrated solutions, operations dashboards, and Agile Solution Factory (ASF) methodology increase visibility into data and performance to improve our customers' ability to rapidly make decisions from the enterprise level to the tactical edge.

CACI
