Features

- Leadership and GEOINT career development
- Realistic, scenario-based training
- Video processing software instruction
- Course offerings from apprentice to expert
- Ongoing testing and development of new tools, techniques, and procedures
- Mobile training teams

Course List

- Nighttime EO
- Order of Battle
- Research Tools
- Full Spectrum GEOINT
- Enhancing Clarity
- Synthetic Aperture Radar
- FMV Target Development Enhancement
- Articulation – Accurately Delivering the Significance
- Critical Thinking
- Military Briefing

In Development

- Multispectral Imagery
- Thermal Imaging
- SAR Composites

CACI's GEOINT Academy offers realistic, scenario-based training taught by industry professionals with Intelligence Community and DoD experience.

About Us: GEOINT Academy

The GEOINT Academy is an unclassified mobile training classroom that provides GEOINT and FMV fundamentals training offline, using industry-standard software. Attendees are taught critical thinking skills that complement technical training in an environment that realistically emulates the analysts' roles and responsibilities.

The GEOINT Academy serves an important role for the geospatial intelligence community by providing training that meets our customers' highest standards. The GEOINT Academy provides a pathway for qualified students outside the GEOINT community to gain the skills and training required for careers in intelligence analysis, All-Source analysis, and Full Motion Video analysis. From professional summary writing to data conversion techniques and advanced photo interpretation, students learn techniques that enhance critical thinking, while sharpening the fundamental skills required in today's fast-paced intelligence analysis environments.

The focused training becomes a springboard for career progression within the company and aids in the motivation and retention of a highly skilled workforce. The GEOINT Academy satisfies the prerequisites required for many geospatial and FMV contract positions, increasing the pool of analysts to meet the emerging needs of critical missions.

Testbed

The GEOINT Academy also serves as a center for testing and developing new tools, techniques, and procedures to better support our customers and advance the state of geospatial intelligence tradecraft.
