

ASTRO Overview

ASTRO is a family of 10 separate MA-IDIQ contracts that span multiple NAICS Codes and NAICS Code Exceptions that is sponsored by the Department of Defense (DoD). This vehicle was awarded and is administered by the General Services Administration (GSA), Federal Acquisition Service (FAS), Assisted Acquisition Service (AAS), Federal Systems Integration and Management Center (FEDSIM).

Contract scope includes operations, maintenance, readiness, research, development, systems integration, and support for manned, unmanned, and optionally manned platforms and/or robotics, as well as the services that support those platforms and robotics.

Easy to Use:

- Customer develops the statement of work (SOW), performance work statement (PWS), or statement of objectives (SOO) including timelines, funding, and NAICS of predominant work.
- Customer coordinates SOW, PWS, or SOO with ASTRO Program Office for courtesy scope review and other initial qualifying factors.
- ASTRO Program Office coordinates with appropriate FEDSIM sector for further coordination with customer on all aspects of the required Interagency Agreement (IA) covering such aspects as customer funding, customer participation, and pre- and post-award FEDSIM participation and support.
- In coordination with customer, FEDSIM develops the acquisition plan, solicits the requirement, conducts pre-award events, conducts the evaluation, makes the award, and conducts post award actions and events.

ASTRO Pool Descriptions

Data Operations Pool

NAICS Code: 541990

All Other Professional, Scientific, and Technical Services

Includes all data collection, processing, exploitation, and dissemination activities associated with manned, unmanned, and optionally manned systems, robotics, and platforms supporting mission performance. This includes traditional labor services as well as “as-a-service” support.

Mission Operations Pool

NAICS Code: 541990

All Other Professional, Scientific, and Technical Services

Includes all non-data collection and analysis services associated with manned, unmanned, and optionally manned systems, robotics, and platforms supporting mission performance. This includes traditional labor services as well as “as-a-service” support.

Aviation Pool

NAICS Code: 488190

Other Support Activities for Air Transportation

Includes the maintenance, repair, and overhaul of manned, optionally manned, and unmanned aircraft.

Space Pool

NAICS Code: 488190

Other Support Activities for Air Transportation

Includes the maintenance, repair, and overhaul of manned, optionally manned, and unmanned space platforms.

Maritime Pool

NAICS Code: 336611

Ship Building and Repairing

Includes the maintenance, repair, and overhaul of manned, optionally manned, and unmanned maritime vehicles.

Ground Pool

NAICS Code: 488999

All Other Support Activities for Transportation

Includes the maintenance, repair, and overhaul of manned, optionally manned, and unmanned ground vehicles and industrial machinery.

Development/Systems Integration Pool

NAICS Code: 541330

Engineering Services

Includes systems integration, systems improvement, and/or systems engineering associated with manned, unmanned, and optionally manned platforms.

Research & Development Pool

NAICS Code: 541715

Research and Development in the Physical, Engineering, and Life Sciences (except Nanotechnology and Biotechnology)

Includes all research and development associated with manned, unmanned, optionally manned, and counter-unmanned platforms.

Support Pool

NAICS Code: 541990

All Other Professional, Scientific, and Technical Services

Includes all support services (except training) required for successful execution of a product, program, project, or process regarding platforms, robotics, and/or systems for land, air, sea, or space; the planning necessary to support operational missions; and the analysis of the results of an operational mission.

Training Pool

NAICS Code: 611699

All other Miscellaneous Schools and Instruction

Includes all training services required for the successful execution of a product, program, project, or process regarding platforms, robotics, and/or systems for land, air, sea, or space.

CACI is one of only five companies to receive awards in all 10 Pools of the contract. With the stringent qualifying factors including experience and past performance, this means you can count on CACI for any requirements or combination of requirements within the scope of ASTRO.

This material consists of CACI International Inc general capabilities information that does not contain controlled technical data as defined within the International Traffic in Arms Regulations (ITAR), Part 120.10, or Export Administration Regulations (EAR), Part 734.7-10. (PRR ID479)

EXPERTISE and TECHNOLOGY
for National Security
