HighVIEW Content Management (per processor licensing)	-Base HighVIEW platform - required for all systems -Content Management -Search & Retrieval (including full-text search) -Reporting Views -Security Features	This is the base product required for all systems in one of the three available licensing modes (i.e., concurrent user, named user, or per processor).	Per processor licensing model The number of processors that must be licensed is determined by the CPUs on the servers hosting the systems. To determine the number of HighVIEW Content Management processor licenses required: 1. Sum the cores on the application/web server and database server machine(s). 2. Divide the number of total cores by 4 rounding up to the nearest whole number. This is the number of HighVIEW Content Management processor licenses required.	33-48	n/a	HVP048	\$ 11,675.40	\$ 2,335.08	G-HVP048	\$ 20,060.46	\$ 4,012.09	SL-HVP048	\$ 21,015.72	\$ 4,203.14	C-HVP048	\$ 21,970.98	\$ 4,394.20
